Explore your potentials with HKIEACA contests

With an aim to provide an all-around platform for gifted teenagers, kids and adults to develop their potentials, Hong Kong International Exchange of Artist & Culture Association (HKIEACA) organizes various exchanges, courses, contests and activities.

Over the years, HKIEACA has designed a series of academic-related competitions, as well as interactive games that cater to the local education scene. These academic activities include the Newton's Challenge Cup for Maths Elites, Hong Kong literacy Cup for the Gifted (Chinese / English), Memory King Competition, Liberal Studies, Little Dr. Science Cup, Logical Challenge Cup, Puzzle Games, Hanyu Pinyin and English Phonics and Multilingual Writing Competition. To encourage students to learn an additional language, HKIEACA recently launches a French language examination called French Exam For All (FEFA).

The competitions and activities have attracted enthusiastic support from various institutes and

schools, including Zenith Kindergarten, Sunkids Kindergarten, International College Hong Kong, Law Ting Pong Secondary School and Tin Ka Ping Secondary School.

HKIEACA believes these events and activities, together with a dose of encouragement, can help children grow their talents, gain experience, and raise their learning initiative, interest and confidence, which will benefit them in a long run.
